Wow! that was a great Frontiersman Sam, if I had my way, John Stoll who was wrongfully convicted in Bakersfield Kern Co Calif, he is suing for 50 million. Would help and Co Found R.O.A.A.R.R.

So rooaarr could get Volunteers and start its tactics to correct 600 wrongfully convicted men women + children, its more like 600 men 600 women + 600 Kids which would represent about 18 Billion in wrongful conviction lawsuits from which I would personally donate to the Frontiersman a good portion that would last a life time, ^{and} then some.

So I appreciate your support + help if you know of anyone who might want to help, have them contact me.

believe me Sam, People in America are sick n tired of the Government rail roading them either in taxation, injustice or eminent domaine. especially when the Government is so corrupt and misrepresents

Pg 2 the truth.

So, I pray people will support the Frontiersmen and write to me, too.

Example: this thing on education, the untruths about our history has the American people mislead about the truth and it has caused a big mis concern in Mexico.

Now Mexico is about a revolution on American soil fueled by our government supported by tax L.A. Raza and they very well intend to infiltrate the Government and American society demanding to surrender America back over to the Authority of the Mexican government. I have exposed this to senators + congress, 2 years ago.

How is it funded, Mexican illegals get in an over crowded van and get hurt or killed in an accident,

which is paid for by insurance, Workmans comp, and wrongful death lawsuits, the above is just an example: and an estimated discription, there are other fields of lawsuits, but who pays the American tax payer, they arent sleepers they are doing it right in front of our Faces.

Another thing, Injustice came to an unbearable head, When an unjust Judge imposed his abuse of discretion,

in a Reno court, that got his Dumb Jack ass shot, it might start a trend. ???...

Americans are Fed up with American injustice

the problem is, they twist the truth and Advocate lies. From the cop filling out the report from the 911 calls, to the prosecutor and/or attorney using unethical tactics to abridge the constitution, and a Jack ass judge abusing his or her authority by abuse of their discretion.

if anyone wants to help sponsor a Web page or site for a defense legal fund to help raise money to hire attorneys of anyone wrongfully convicted please help.

Sam can you send me a physical address of?

Thank you again so much for your help,
if you print this letter just so folks will
know. I acted to protect my son from
being killed by his irrate intoxicated Baby Killing
Mom, who Killed before.

She attempted to wrest him into the direction
of a wall where a 2x2 Fire safe was sitting
on a ricketty T.V. Tray table.

the momentum and movement made it appear to me
like a shocking traumatizing visual in my mind,
a scary picture of my son laying on the
Floor with the corner of the safe embedded
in his fore head, and his eyes closed.

I reacted in that very instant to stop
it from happening - Standing up.

We Fell to the Floor

and as I was helping her up.

My step daughter came up behind me hitting
and pushing and pulling on me. she then said,

"then he turned And Stabbed me too!!"

I did Not and a ~~test~~ DNA test could prove
her blood and DNA is Not on the Knife.
thats only 1 lie of many she told to mislead
people from the truth.
the other thing is, the unsolved cold case
of murder where a little baby girl died
because of 2 people who took an over
dose of meth that killed the child.
this shows a Ruthless disregard for a

venture
1997

145 Childs Safety that ended in murder.

I did not get a fair trial because the trial attorney had a conflict of interest and refused to show the perversity of a deadly Ruthless disregard for a child's Safety that ended in murder.

He barred that perversity by saying "I will not bring up anything in Cheryl Melinda Ruckers ^{Knight} _{maiden name.} past, that would disrespect the Dead"

He was part of a legal team that investigated myself and Cheryl in a previous custody legal battle. to prove us as unfit parents he knew of her perversity of violence.

Any parent who cares about preventing Domestic Violence contact me. any Father who wants to talk. please write me and anyone who wants to support this legal defense Fund.

Sam, will you control the donations for a defense fund in my behalf?? than will you add where people can send Donations? if you will please or can?? let me know

Please remember if anyone has a contact info for John Stoll. have him to contact Eddie Knight of the enclosed address thank you all respectfully,
Eddie Knight.
